

COUNTY SHOWING SETS TULSA UP

Many Folks Thought This
Community Wholly
an Oil One.

PRIZES OPEN EYES

Newt Graham, Secretary of
Fair, Says Will Com-
pete Next Year.

"There is more than one reason for satisfaction in the fact that Tulsa county won the state agriculture championship at the state fair this year," said Newt Graham, secretary of the Tulsa fair, last evening.

"For one reason we are glad that we shocked the rest of the state, as most of the counties thought that Tulsa could never be a serious contender for any honor excepting that of the state oil center. My principal reason for thanks, though, is the fact that this winning has had the effect of causing Tulsans to consider the farm interests

SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

DRINK A GLASS OF HOT WATER
BEFORE BREAKFAST TO
WASH OUT THE
POISONS.

Life is not merely to live, but to live well, eat well, sleep well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning habit of drinking a glass of hot water.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, rusty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water with limestone phosphate on an empty stomach, is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced expert on the subject of internal sanitation.—Adv.

STRENGTH AND HEALTH FOR MEN

OUR BEST REFERENCE.

Our many cured, satisfied patients, our many years of success here attested by one of the largest practices in the state of Oklahoma. These desires to consult us better write or make appointment beforehand, else we might not be able to see you on day you call because almost every moment of our office hours is taken up with previous appointments.

and possibilities of this county in a serious way.

During the past two years we folks have been striving for better Tulsa county in an agricultural way have realized that many good Tulsans took our efforts with less seriousness than we have wished. Most Tulsans, like most folks of the state at large, have thought of Tulsa only in terms of oil. Most of them are now placing agriculture possibilities at a higher rank than heretofore.

While Mr. Graham feels that credit is due to a large number of Tulsans for the winning, he gives particular credit to the efforts of Doctor Earnheart, who he says, has spent considerable time in filling the Tulsa exhibit with everything that could possibly win points from the judges. As far back as six months ago Doctor Earnheart and other of the fair board began preparing for the state fair contest. This work has been continued to the conclusion sought. It is supposed to go after the cup again next season, the work starting this fall.

HER GUILT FAILED TO KILL HIS LOVE

As Girl Stood at Bar, a Confessed
Thief, Man Wrote
Her.

NEW YORK, N. Y., Oct. 5.—(Bartholomew, 21 years old, was called to the bar in court of general sessions here Wednesday to be sentenced for the theft of \$5,000 from the lace manufacturers who had trusted her implicitly while she was employed by them as a bookkeeper. She had admitted her guilt.

"Is there anybody in the court who is interested in the prisoner?" asked Judge Wadhams.

"I am your honor," replied a young man.

"Do you realize that this young woman stands here having confessed that she stole \$5,000 from her employer?" asked the court.

"I do, sir; but that makes no difference to me. I believe that she is honest at heart. I love her and I want to marry her."

Sentence was suspended when the young man who said he was Harry Richard Mattison, a clerk, produced a marriage license. Partial restitution of the stolen money has been made and the return of the remainder promised.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush kidneys
if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

GIVE ARMY BOYS SAMPLE OF LIFE

Ambulancers Will March to
Fairgrounds Where They
Will Encamp.

EQUIPMENT ON HAND

Are Now Awaiting Formal
Orders From Govern-
ment to Go to Border.

Border life within walking distance of Tulsa's six square area is in order for the members of Ambulance company No. 1, Tulsa, Okla., who this morning will march from the Convention hall to the fairgrounds, where they will pitch tents, erect their field kitchens and mess hall, and set into camp. The first meal in camp will be served at noon today.

The tentage and other equipment

Even a Nonunion Waiter May Know How to Serve a Boiler

But the Fight Being Made on Open
Restaurants Has Not Displaced
Him.

It's a hard matter to tell from the taste of a hard-boiled egg whether the man behind the swinging door in the starched cap and grease-burned apron is a member of the union, but within the past six weeks it has even become a more difficult task to tell whether a union or nonunion waiter stands at the cigar counter and transmits your order to the chef. Waiters are waiters and while some can give mixed plates on their arms than others, and others can, and sometimes do, forget that water is a side order with most meals, you have to have a distinguishing mark on the lapel of their jacket to tell the difference.

Tulsa, so waiters working in local restaurants say, has not been completely won over by the unions. Neither has it, like some other cities, become a more difficult task to tell whether a union or nonunion waiter stands at the cigar counter and transmits your order to the chef. Waiters are waiters and while some can give mixed plates on their arms than others, and others can, and sometimes do, forget that water is a side order with most meals, you have to have a distinguishing mark on the lapel of their jacket to tell the difference.

Within the past four months a spirited campaign was carried on for the purpose of forcing several Tulsa restaurants into the union. Pickets—water with badges who waited in front of the unfair restaurants—patrolled the open places and several arrests were made, but evidently that is over. One restaurant man admitted yesterday that his place was not a union place, but he was permitted to employ union men, or nonunion men, and nothing was said of it.

"The unions are preparing for the final attack," said a union waiter last night. A nonunion man declared that the backbone of the union's strike was broken. But at any event, the hard-boiled egg and the deviated cucumber look, taste and smell alike either when served by a union or a nonunion waiter.

CARBOLEIC ACID BY MISTAKE

But Young Woman Remains Presence
of Mind and Eye Won't Be Lost.

Making a phial of carbolic acid for a bottle of harmless eye wash, Mrs. Nellie Cochran, residing at the Ontario apartments, dropped a small portion of the deadly acid into one of her eyes yesterday afternoon.

Retaining her presence of mind the young woman dashed cold water on her face and summoned a physician. Immediate relief was afforded her and it is not believed that she will lose her eyesight.

was received from the Mexican border field depot yesterday morning by express, and immediately Captain La-Beau and his lieutenants Captain making arrangements for a group on which the unit will camp until orders are received from the war department for their movement to the Mexican border.

The equipment which was received yesterday was ordered several days ago by the war department and only the congestion of freight traffic between Tulsa and border points delayed the shipments. It is possible, it was announced yesterday morning, that if the company is kept in camp in this city for any length of time, other equipment will be shipped to Tulsa, with the exception of the trucks and trucks. If this is the case the hospital classes will be formed and immediate instruction in this branch of the service will be inaugurated by the medical officers who will command the company.

Uniforms for the men are expected to reach Tulsa this afternoon. They will be distributed at once and Captain La Beau expects to have the corps in shape for public inspection by next Sunday.

The ambulancers will undergo another medical examination this morning. This afternoon every man in the company will be vaccinated against typhoid and cholera.

Adjutant General Ansel Hays arrived yesterday. Other officers who recently reached Tulsa are Captain H. C. McDonald of the U. S. medical corps and Captain W. M. Marchant of the Nineteenth U. S. infantry.

100 APPLY TO NIGHT SCHOOL

Principal Horner Has His
Hands Full at First
Opening for Session.

One hundred applications for entrance into the Tulsa free night school were received Wednesday at the high school by J. T. Horner, principal. Room 21 at the high school was crowded with persons awaiting information and signing up for the year's work. Horner expects that before tomorrow night there will be from two hundred fifty to three hundred on the membership lists.

Monday night, October 9, will be the opening night and Horner will be at the high school for two days of this week to enroll pupils and give the necessary information. By the end of the week courses will be arranged and teachers selected.

The night school is free to everyone who wishes to enroll and the only charge will be for the necessary books. A deposit is required, however, of \$1 which will be given back at the end of the year if 75 per cent of the nights have been attended.

The pupils are also free to choose any subject which they desire and the subject will be taught in a class of ten or more are signed up for the year. Last year more than twelve subjects were elected and taught and it is expected that there will be even more this year.

Horner has received six large posters in color which have been placed in the most important places in the city for the information of foreigners who desire to attend the classes. The posters are in several different languages and treat of the necessity of the foreign-born man to acquire the American language and customs to make a success of his citizenship.

WOMEN CAMPAIGNING FOR REPUBLICANISM

They Take Issue With Those Who
Would Defeat Charles
Hughes.

TULSA, Okla., Oct. 5.—Thirty-five women campaign for Charles E. Hughes, Republican presidential nominee, left here Wednesday for Detroit, Mich., after holding several enthusiastic meetings attended by large crowds.

At a local automobile factory Miss Frances Keller of New York, organizer of the women's expedition, was met by a hostile crowd of Socialists and Democrats. Several had she started to speak to the ladies, the result of Mr. Hughes when her voice was nearly drowned out by cheers for President Wilson.

"How about the Danbury haters?" she was asked.

"Mr. Hughes," she replied, "was not on the supreme court bench when the first decision was rendered and in 1914 when the case came up again, the court's decision was only on the law in the case and not on its merits."

In answer to questions from a Socialist Miss Keller declared "Socialism is an educational factor in national politics, but is not a political factor."

LYNCH THE MOTHER OF NEGRO MURDERER

White Son Fought With White Planter,
Woman Struck Him
Down.

ARLINGTON, Ga., Oct. 5.—Mary Connolly, a negro woman whose son, Samuel Connolly, is accused of having killed E. M. Melvin, a planter, was taken from the jail at Leary, Ga., here Wednesday night and shot to death, according to reports reaching here today. Samuel Connolly has been taken to Macon for safe keeping.

The woman is said to have interfered when the planter reprimanded the boy for neglecting his work and while he was struggling with the woman, the young negro killed Melvin with a piece of iron.

REPUBLICANS MADE A BID TO PUSH A GO-CART 150 MILES.

Man Bet Germans Would Be Victorious
by August 1, 1916.

When Otto Wiederberger offered to pilot a baby carriage from Albany to New York city if the European war did not terminate as he said it would before August 1, 1916, with Germany victorious, he had no idea that he would be held inexorably to the letter of the wager. In the event of his failure to accomplish the self-proposed feat he declared he would pay \$250 as forfeit to Harry A. Jockin, who is a Belgian by birth, and manager of the shipping department of the

Open Saturday Evenings 10 to 10 o'clock

New Theories Are Based on Old Facts--

The law of gravitation and the power of steam were not invented, but discovered; and still people laughed at both, until experience taught them that these things had always existed, but were only now being brought into practical use.

Our new theories of saving every possible penny for our customers, our new theories of giving every man the same Square Deal at all times are based on the old facts that "savings make values," and that "honesty is the best policy." We do not, at the end of any season, try to palm off left over merchandise at so-called Bargain Prices, because we think it's an old established fact that such merchandising is not to the best interest of the customers. On this we base a new theory, with the result that we sell

JUDGE SUSTAINS GYPSY DEMURRER

Holds That Company Does Not Own
G. M. Withington for Gas
Profits.

A ruling of importance to oil companies was made by Judge Linn of the district court Wednesday when he sustained the demurrer of the Gypsy Oil company in the case of G. M. Withington against that company. In the oilfield petition the plaintiff asserted that he had leased his land in the south Cushing field to the oil company for oil and gas development. The lease was delivered in 1906 and provided that "the manufacture of cash-on-hand gas has been perfected."

POSTS ALONG ROADS NEED OF TRAVELERS

Method of Marking Highways Should
Be Selected and Put in
Practice.

A system of sign posts on every road within one hundred miles of Tulsa is a suggestion of C. S. Avery, chairman of the county commission, to bring more motorists to this city. Signs giving the direction and distance to Tulsa, the commissioner believes, would bring thousands of tourists to Tulsa annually.

It is pointed out that motor travel is an ever-increasing method of transportation and that motorists are guided largely by sign posts along the road. Commissioner Avery is of the opinion that a system of sign posts would be of as much value to Tulsa as an interurban electric line.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite
Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you parted your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application of two, your hair becomes beautifully dark, glossy and attractive.

Weyth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

UNITED STATES LARGE OFFICE. IT WAS JOCKIN WHO TOOK EXCEPTION TO WIEDERBERGER'S STATEMENT ABOUT THE ENDING OF HOSTILITIES ON THE OTHER SIDE OF THE ATLANTIC AND AT THE SAME TIME TO THE BET.

In sportlike fashion Wiederberger left here for Albany, Jockin meanwhile having shipped a baby carriage addressed to Wiederberger in Albany. Everything appeared to be arranged in due form for the 150-mile walk.

Then there came to Jockin a vague rumor that the losing bettor contemplated "putting one over" on him. He was hinted by friends that Wiederberger would go aboard one of the night steamboats of the Hudson Navigation company's fleet and perambulate on deck in the dark with the baby carriage so that none might see or gloat. In this way he meant, it was said, to fulfill the obligation of "walking to New York from Albany with a baby carriage."

"No chance in the world," remarked Jockin, when informed of this possibility. "I thought of that myself, so I arranged to get a few days off. I'm going to Albany myself to see that Wiederberger gets away right. Two friends of mine who were with me when the bet was made are going along, too. If necessary we'll follow Wiederberger in an automobile. He said I might insist upon any load to be carried in the baby carriage. If we can't find one of those long, low, rakish German dogs I guess we'll fill the baby carriage with frankfurters."
